
GenCyS 2025 – Event Overview

 **Title: Powering Cybersecurity with the Intelligence of Tomorrow**

Introduction:

GenCyS 2025 is a premier **virtual cybersecurity event** hosted by UST, bringing together professionals, researchers, students, and innovators to explore the evolving cyber landscape. This year's theme, “*Powering Cybersecurity with the Intelligence of Tomorrow*,” emphasizes real-time defense strategies, AI-powered solutions, and skill-building opportunities for every level of expertise.

Date: August 23–24, 2025

Location: Fully Virtual – Open to participants across India and beyond

Objectives

- Promote awareness of next-generation cybersecurity trends
 - Provide a platform for talent recognition and career opportunities
 - Highlight academic and industry-driven innovations
 - Foster connections between experts and aspiring professionals
-

What to Expect

- Keynotes by **global cybersecurity leaders**
 - A high-stakes **Capture the Flag (CTF)** competition with ₹7.5 lakh in prizes
 - **Hands-on workshops** for beginner to advanced skill levels
 - A **Call for Papers** for academic and practitioner contributions
 - Mentorship and career placement opportunities from UST
-

Why It Matters

Cybersecurity is a business-critical pillar in today's digital economy. GenCyS 2025 tackles real-world security concerns by bridging the gap between technology, talent, and tactical defense — all within a collaborative and accessible conference experience.

Who Should Attend?

- Cybersecurity professionals and C-level executives
 - Ethical hackers and penetration testers
 - Engineering and computer science students
 - Researchers and academicians in AI and security
 - Cloud architects, IT consultants, and solution vendors
-

Event Format

- Fully **virtual** with live + on-demand sessions
 - Interactive chat, live Q&A, and virtual networking zones
 - Mobile and desktop friendly
 - **Free registration** via: <https://events.ust.com/gencys2025>
